Re: Inspection of Public Records Act Request

Dear Mr. Peters:

This is in regard to your IPRA request received on November 15, 2012. Documents responsive to your request have been placed on a disk which is available for pick-up at our office located at 408 Galisteo Street, Santa Fe NM. In the alternative, I can mail the disk to you.

The disk contains two files consisting of correspondence and communications, mostly email communications, received from anyone involved or affiliated with the Independent Source PAC. A third file contains the documents received from same, all of which came in the form of attachments to the email communications. We could not figure out how to provide the emails in their "original format." They have been scanned to a PDF so we could at least provide them electronically. We believe most of the email attachments are in the "original format" as we received them. Finally, there probably is some duplication in the emails as they were gathered from different email accounts. We have erred on the side of providing duplicates in an attempt to avoid missing any documents.

We are not withholding any documents under any exception to IPRA and are providing all responsive documents that have been located.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lyn Payne".

Lyn Payne
Records Custodian
